

THE BEST PLACES TO GET AWAY FROM IT ALL

RELAX

REAL MEN USE...

There's nothing like a close shave, and they don't get any closer than with a straight razor. Mad Aspen Home carries a line of vintage straight razors, restores old pieces and hones dull blades. But true connoisseurs get their shaving gear made by Mad Aspen's Max Sprecher, who not only produces beautiful custom handles, but also makes the blades himself. Custom razors start at \$199. Too scared to try this at home? Then leave it to the professionals. *See Page 68*
